

Spectrapaint Remaining Issues

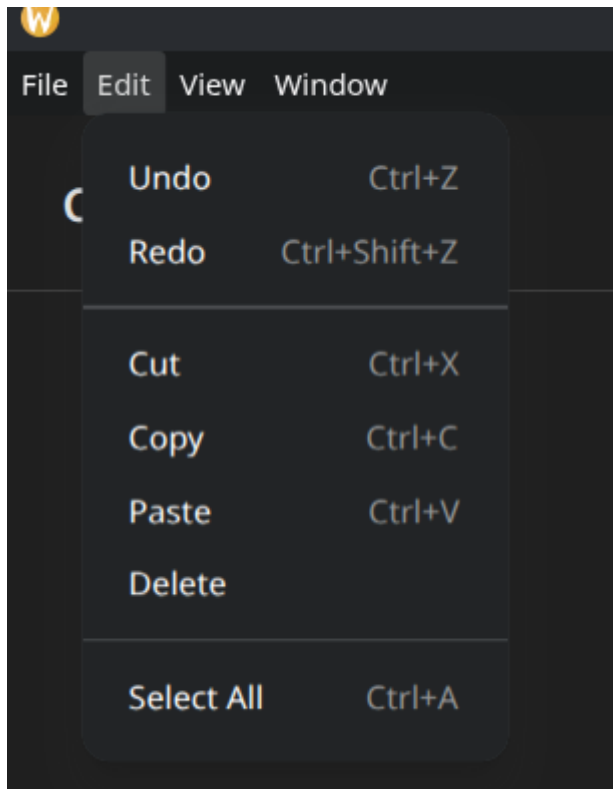

1. Images gets in zoomed version after uploading
2. Not removing stains which is present on wall even after painting
3. When edge selected wall colour get faint and observation looks improper
4. Still not able to some tiles type room

5. Could not paint left wall

6. These buttons are not working at all

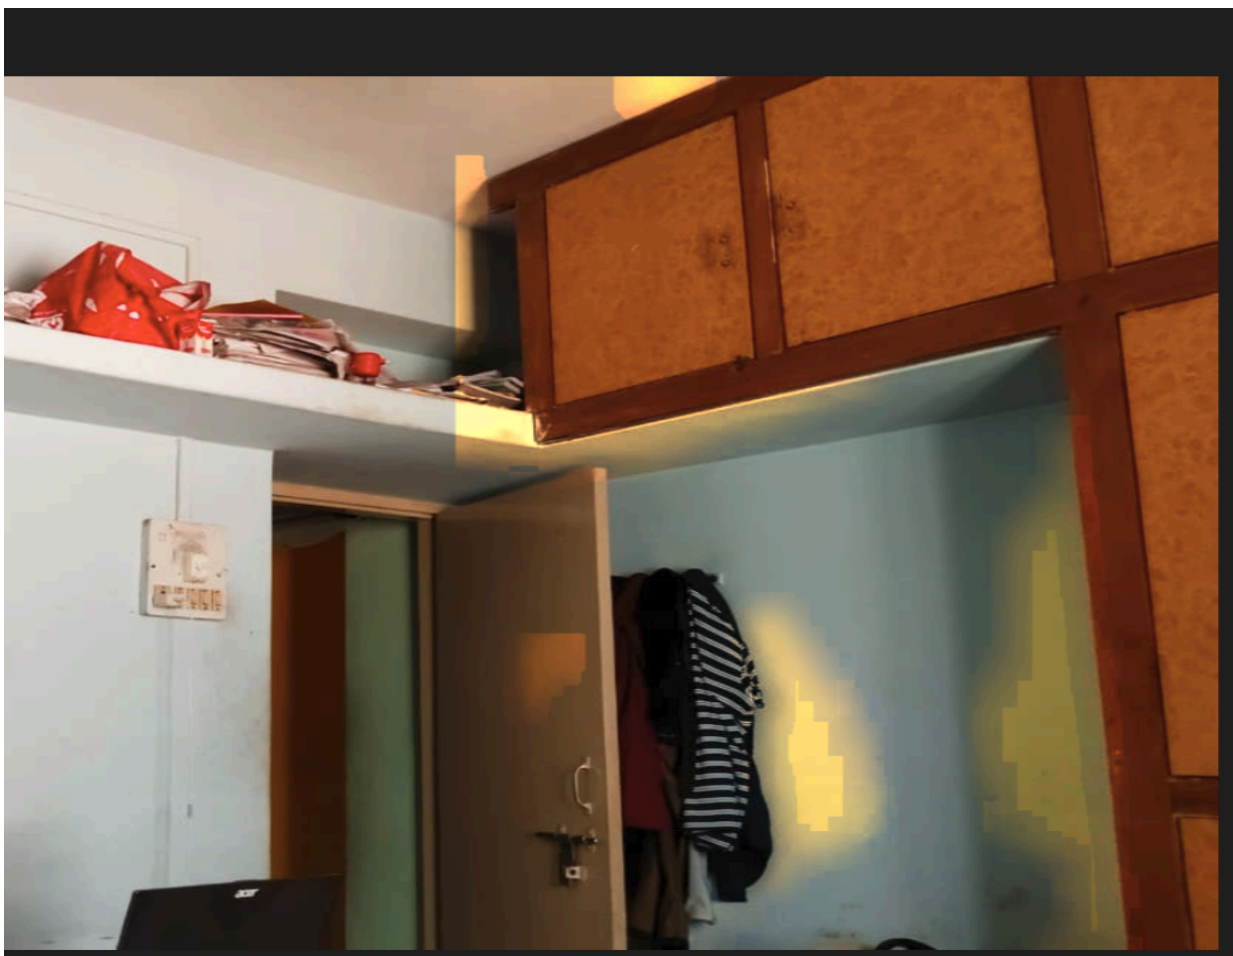

7. Not painting well if the wall has sunlight on it .
Original photo

8. Could not identify the tiles

9. Again not painting good if sunlight is there on wall
